THE LAY OF THE LAND

INSPIRATION CAME FROM

NATURE ITSELF

For inspiration, we turned to the desert and we became inspired by the resilience of the flora found there. With the Ghaf tree as our starting point, we chose plants, shrubs and trees suitable to the local climate. Native species were favoured because of their resilience to drought and heat.

THE INGREDIENTS

OF THE EARTH

Everything, down to the soil beneath your feet, is carefully thought out. Ghaf Woods' smart soil, rich in minerals and organic structure, gives our forest the nourishment it needs.

Special water-capturing technology gives the plants the vital hydration they need in a sustainable way.
