SUSTAINABILITY

FOR YOUR PRESENT & YOUR FUTURE

Sustainability and green living are at the heart of ZāZEN Gardens. From the building materials used to the construction methods, we ensure that we keep our carbon footprint to a minimum.

We have designed an eco-friendly lifestyle, with over 35,000 square feet of landscaping, multiple recycling stations, EV charging stations, and solar panels. The solar power generated supplements the energy usage in all common areas of the building and helps reduce service charges for owners.

Our Green Building and LEED Gold certification, which will be achieved at completion, means that the indoor and outdoor environments have been carefully considered and protected at all stages of development - design, construction, maintenance, and use, resulting in the healthiest environment for you and your family.

BENEFITS OF INVESTING

ZāZEN Gardens is not just the perfect place to live, but also a great investment option to secure your family's future. There are many excellent reasons to invest in Dubai, being the Best Global Destination for 2022 on TripAdvisor's Traveller's Choice Awards, is just one of them.

With visionary leadership, world-class infrastructure, robust regulations, ease of business and a globally recognized healthcare and pandemic response system, Dubai has positioned itself as the best city for tourism, business opportunities, and as a primary or secondary home base. And with the softening of regulations to obtain a long-term Golden Visa, by real estate investment, it is now much easier for you and your family to call Dubai home.
